

The subfolders listed above contain only the files that were changed, not the whole AAPS project.

For those who just replace the files in Android Studio project folder here is where they can be found:

Folder Hierarchy	Filename
app	
src	
main	
assets	
OpenAPSSMB	determine-basal.js
java	
info.nightscout.androidaps	
plugins	
aps	
openAPSSMB	DetermineBasalAdapterSMBJS.java
iob	
iobCOBCalculator	GlucoseStatus.java
res	
values	strings.xml
xml	pref_absorption_oref1.xml
	pref_openapssmb.xml
